SUMMARY

AIML undergraduate with strong foundations in Machine Learning and Python, experienced in building data-driven forecasting and automation systems. Hands-on experience with time-series models, data pre-processing, and model evaluation, along with a passion for solving real-world problems using AI/ML.

TECHNICAL SKILLS

Programming: C, Python
AI/ML: Basics of ML ,Time Series - ARIMA, SARIMA, Prophet, Classification, Model Evaluation
Libraries & Tools : NumPy, Pandas, Scikit-learn, Matplotlib, Jupyter Notebook
Core Concepts: Data Structures & Algorithms, Database Management (SQL), Data Pre-processing
Frontend: HTML, CSS, React
Design Tools: Figma, Canva
Others: Data Visualization, Git/GitHub

PROJECTS

Electricity Demand Forecasting – Time Series Analysis (Current Project)

- Built a time-series forecasting model to predict daily electricity consumption
- Performed data cleaning, trend & seasonality analysis
- Implemented SARIMA and Prophet models

ERP – Membership & Billing Automation System

- Developed an ERP prototype to manage gym memberships, trainer schedules, and automated fee tracking.

Match Winning Prediction – Machine Learning

• Built a match outcome prediction model using current match score and team statistics
• Applied Random Forest classifier with feature engineering on live match data

PROFESSIONAL EXPERIENCE

Intern - Movies4u Digital Media **September 2023 - September 2025**

- Worked on digital content, social media operations, and creative design tasks using Canva & Figma.
- Contributed to promotional campaigns and assisted in managing media workflows.

EDUCATION

B.Tech in Computer Science & Engineering (AIML)
SRM University, Ramapuram (2023 – Present)
CGPA: 9.48
Class 12 — MPC
St. Chaitanya Junior College, Gudavalli (2023)
Percentage: 92.7%
Class 10 — State Board
Viswabharathi High School, Gudivada (2021)
Percentage: 100%

ADDITIONAL INFORMATION

Certifications :

- Supervised ML - Scaler Topics
- Artificial Intelligence Fundamentals – IBM SkillsBuild
- DSA Basics – UNSTOP
- Python for AI Workshop – AI for Techies
- C Programming – Great Learning

Achievements :

- Participated in VIT VOID Hackathon - Final Round (Healthcare)
